

WILBA

FACEBOOK LAUNCH KIT

Plug and play for Monkey Joe's

Two campaigns, built and ready. Two copy tests and four ad creatives each, the audiences, the budget, and weekly reporting. Say go and this is live within a week.

Prepared by Jess, WILBA · Pointe Orlando and Winter Park · ready to deploy

WHAT THIS IS

A campaign you switch on, not a plan to think about

Everything here is deployment ready. Two campaigns, 50% off and birthday parties. Each one has two copy variants to test and four ad creatives, all written and designed. The audiences build straight into Ads Manager, the ads point at the pages already built in the pilot, and every click carries the tracking that ties a redemption back to Facebook in GHL.

Two campaigns. Sixteen ads ready to test. All that is missing is the word go.

BUILT ON WHAT WON

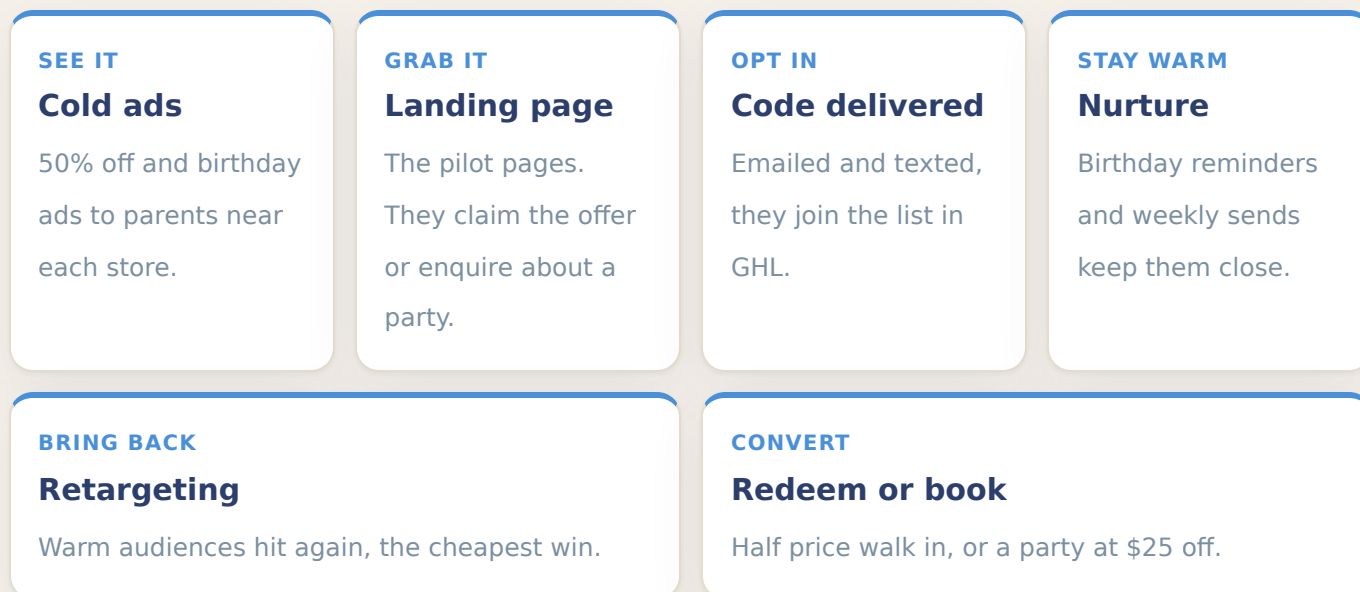

The copy is pulled from the data, not guesswork

- **The \$25 hook drove the most redemptions of any offer.** The Welcome voucher pulled 47, more than anything else, so the \$25 idea runs through the birthday offer too.
- **Half price was the efficient winner.** Best cost per result on Google and the second most redeemed offer. It leads the walk in campaign.

- **"Active kids, happy hearts" is Michael's best performing line ever.** We build on it rather than reinvent it.
- **BOGO barely redeemed.** Two redemptions across the whole pilot, so we drop it.
- **Facebook retargeting ran at \$0.23 per landing page view,** well below benchmark. That is the engine under both campaigns.

THE FULL FUNNEL

The whole journey, one page

Every step is tracked. The weekly report shows spend, leads, redemptions and parties, split by store and by channel.

THE AUDIENCES

Who we put this in front of

AUDIENCE	FEEDS	DEFINITION
Parents near the store	Cold ad set	15 mile radius of each location (Pointe Orlando: International Drive. Winter Park: Lake Howell Rd). Ages 25 to 45. Parents of toddlers through early school age. Interests: indoor play, trampoline parks, family attractions, kids birthday parties. A separate ad set per store.

AUDIENCE	FEEDS	DEFINITION
Birthday parents	Birthday cold	Same radius and ages, narrowed to parents of 2 to 10 year olds with event and shopping behaviours.
Website visitors	Retargeting	Everyone who hit the site or an offer page in the last 180 days (Meta Pixel).
Engagers	Retargeting	Video viewers at 25% or more, and Facebook or Instagram page engagers, last 365 days.
Your list	Retargeting	The GHL opted in list plus the wider database, uploaded as a Custom Audience (hashed).
Past redeemers	Retargeting	Everyone who has already redeemed a code, uploaded as a Custom Audience. The gold list.
Lookalikes	Cold, phase 2	1% to 3% lookalike of the redeemers and of your customer list. Scale what already works.

Both campaigns run a cold ad set (prospecting) and a warm ad set (retargeting), sharing the four creatives below.

CAMPAIGN 1

50% Half price play
 Drives weekday walk ins. Half price admission (\$12.25 Pointe Orlando, \$8.50 Winter Park). Points at the pilot half price pages.

TWO COPY VARIANTS TO TEST

COPY A · OFF THE SCREEN

Get the kids off the screen and onto the bounce houses. Active play, air conditioned, and right now it is half price admission. Grab your pass and come jump.

Headline Active kids, happy hearts

Button Get Offer

COPY B · SOMETHING TO DO TODAY

Looking for something to do with the kids today? Half price play at Monkey Joe's. Unlimited slides, bounce houses and the jungle gym, indoors and cool. Grab your pass and come in.

Headline Half price play today

CAMPAIGN 2

Birthday parties

\$25 Drives party bookings. \$25 off with the BDAY25 code. Points at the pilot birthday enquiry page.

TWO COPY VARIANTS TO TEST

COPY A • ZERO STRESS

The easiest birthday party you will ever throw. Private room, a host who runs the whole thing, unlimited play, pizza and drinks sorted. You bring the cake, we do the rest. Book this month and take \$25 off.

Headline You bring the cake, we do the rest

Button Book Now

COPY B • THE PARTY THEY REMEMBER

Give them the party they will talk about for weeks. Giant slides, bounce houses, the three story jungle gym, all theirs. We handle setup, food and cleanup so you enjoy the day. \$25 off parties booked this month.

CREATIVE DIRECTION

How these run

- **The cards above are production ready** as static offer ads, square for Feed and vertical for Stories and Reels.
- **For video, cut short Reels from Monkey Joe's own footage** of the play floor and party room, with the same offer overlaid.

- **Hook in two seconds.** Open on the action, a kid mid slide, not a logo.
- **Refresh every two to three weeks** so nothing goes stale, and keep the winning ad running.

BUDGET AND SETUP

Same spend, wired to your systems

CAMPAIGN	PER STORE / MONTH	BOTH STORES
50% off (cold + retargeting)	\$300	\$600
Birthday parties (cold + retargeting)	\$200	\$400
Total ad spend	\$500	\$1,000 / month

Ad spend is paid by Michael to Meta. WILBA management is a separate \$1,000 a month to run the campaigns, creative, audiences and reporting.

SETTING	HOW IT'S BUILT
Structure	Two campaigns, each split into a Pointe Orlando and a Winter Park ad set, cold and retargeting.
Objective	Leads, optimised toward the offer and party enquiry completions.
Placements	Advantage+ across Facebook and Instagram feed, Stories and Reels.
Offers	Half price admission (\$12.25 Pointe Orlando, \$8.50 Winter Park) and \$25 off parties (BDAY25).
Landing pages	The pilot pages, reused. Half price checkout and the birthday enquiry page.
Tracking	Meta Pixel and Conversions API on the offer, redemption and party pages. UTMs on every ad so each redemption ties back in GHL.
Reporting	A weekly scorecard to Michael: spend, leads, redemptions and parties by store and by channel. A monthly on brand summary for corporate.

Most of this is already built

ALREADY IN PLACE, FROM THE PILOT

- Meta Pixel and Conversions API, live on the pages
- Retargeting audiences, established and running
- The half price and BDAY25 offers and codes
- The account itself, running and learning, which we keep

WHAT WE FINISH TO LAUNCH

- Build the new cold prospecting audiences and lookalikes
- Load the two campaigns, two copy and four creatives each
- Finish the payment gateway and GHF funnel (with William)
- Wire the Meta token so WILBA runs and reports on the account
- Confirm UTMs, one tracking test, then scale

The account is already running and performing, so we do not pause it. We build the new campaigns on top of what is live and keep every bit of momentum.
